

Teachers teach, kids learn and families enjoy

Mini-grants for Teachers from FAST

The intent of the mini-grant project is to support teachers in ways that further the **FAST** mission of advancing the use of arts, sciences, technologies and social studies in the daily lives of individuals and families in Morgan County. **FAST** wants to aid teachers who encourage their students to share new knowledge with their families and friends. Thus, **FAST** gives priority to projects that create a meaningful learning experience beyond standard classroom rote memorization and empower students to apply newly learned words and concepts in conversations outside the classroom.

APPLICATION FORM (deadline July 1, 2018)

Please provide concise and accurate contact information. Type your information directly into this file and choose Save As from the File menu to save to desktop. Send the finished .pdf file as an email attachment to wemlands@att.net. Awardees will be notified by email, and checks will be sent in August to the school hosting the project.
